MIR Summer Research Program Application

Please take some time to review the [2022 MIR Summer Research Participating Faculty](#) list. Learn more about [MIR's research faculty here](#).

List up to three faculty members in order of preference:

1. _____

2. _____

3. _____

Name: _____

Note: Prior to submitting your application, please contact at least one of your top three faculty mentor choices. Talk with them about their research and whether they would be interested in having you work with them as an MIR summer research fellow.

1. Describe your research interests in Radiological Sciences and how you would benefit from participation in this summer program. Explain how this program aligns with your long-term academic goals.

2. Please describe factors that guided you in selecting your number one choice for faculty mentor.

Name: _____

Prior Research Experience (if any):

Location: _____

Dates: _____

Mentor: _____

Project title: _____

Location: _____

Dates: _____

Mentor: _____

Project title: _____

Publications and/or presentations:

The information I have given in this application is correct to my knowledge.

Name

Date

Please return your completed application, official transcripts from all undergraduate schools (and medical school if applicable), and **two letters** of recommendation on the recommender's institutional letterhead. For medical students, recommendations from undergraduate faculty or advisers are accepted. Undergraduate transcripts should contain **cumulative GPAs**. Medical school students must also submit MCAT scores to complete their application for the summer research program. Only completed applications will be submitted to the Selection Committee.

MIR's Office of Diversity, Equity and Justice (DEJ) promotes equity for all members of MIR by fostering a community that embraces and reflects diversity of backgrounds, experiences, and perspectives. Our objective is for MIR as an institution to become a model for diversity and inclusive excellence through progressive practices, policies and cutting-edge research on health disparities relating to radiological sciences-driven healthcare. Women and minorities are encouraged to apply to MIR Summer Research Program.

All above materials must be emailed to mirsrp@email.wustl.edu no later than Monday, January 24, 2022. Please make sure to include "MIRSRP2022" in the subject line. If sending via regular mail, all materials must be post-marked by Monday, January 24, 2022.

For administrative questions, please contact Debra Hughes, program coordinator, at hughesd@wustl.edu.

For program specific questions, please contact Vijay Sharma, PhD, professor of radiology, neurology and biomedical engineering at sharmav@wustl.edu.

More about the [2022 MIR Summer Research Program](#):

- The start date for the program is flexible; you may start anytime between May 23 and May 30, 2022.
- This is a 10-week program based on approximately 40 hours per week.
- You will be paid a stipend totaling \$7,000. You will receive a check in June for \$3,500 and a check in July for \$3500. This position is a temporary position paid via a stipend and is not benefit-eligible. There will be no taxes pulled out of your checks and you will receive a 1099 form at the end of the year.
- If you need local housing, a popular location is Olin Hall (the medical school dormitory), located on the medical school campus. The available dates for housing in Olin are from May 23 through August 1. Please contact directly.
- As a representative of the MIR Summer Research Program, you will be expected to comply with all applicable policies of Washington University and the School of Medicine. In addition, you will be expected to comply with all training requirements necessary for your lab or section. Washington University is committed to maintaining a safe and healthful community by promoting a drug and alcohol-free environment. In addition, all new employees are required to have a tuberculosis skin test performed upon employment, at no cost.
- Throughout the summer, there will be planned social activities for all Summer Researchers at Washington University.
- For transportation needs, you may purchase a Metrolink train pass for public transportation or a campus parking pass.
